Subject: CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case

I oppose this plant because I do not believe the air quality tests performed were indicative of what the citizens of Santee CA will have to endure. Santee is located in an inland valley that already has air pollution hanging over us in the hot summer months. The samples taken for the reports submitted were not taken in Santee, let alone is the summertime.

This plant would be very close to one of our two high schools as well as senior mobile home parks.

Thank you in advance for your consideration in this matter.

Respectfully,

Mary Lowling
